License Number	Province	Date of Birth
J00625253540421	Ontario(ON)	1954/04/21
Optional 1	Optional 2	Licence Class Entered
Driver Name	Tracking Number	A
Driver License Status		
Valid		
Authorized Vehicle Class	Class Matching Result	
G	Downgraded	

'Valid' response means that the driver's licence number entered is not suspended, cancelled or expired.

'Not Valid' response means that the driver's licence number entered is suspended, cancelled, expired or a combination thereof.

'Interlock' response means that the driver's licence number entered has an Ignition Interlock condition. The driver must only drive vehicles equipped with an approved Ignition Interlock device. This is a small breath-testing device connected to the engine ignition system that prevents the operation of a vehicle when the driver's blood alcohol level is above a certain limit.

'Not Found' response means that the driver's licence number entered is not a recognized driver's licence number and does not exist in the jurisdictions database.

'Invalid DOB' response means that the driver's date of birth entered is not a correct match to the licence number provided, but the licence number exists with the jurisdiction.

'Class Match' response means the class of license provided matches the class in the jurisdictions database.

'Downgraded' response means the class of license provided has been downgraded from the original class provided and not able to drive vehicles originally qualified for.

'Not Provided' response means no class of license was provided to check.

'Not Completed' response means that the Jurisdiction system is down or the system is temporarily unable to complete the transaction. Please try transaction later, this will not billed.
